

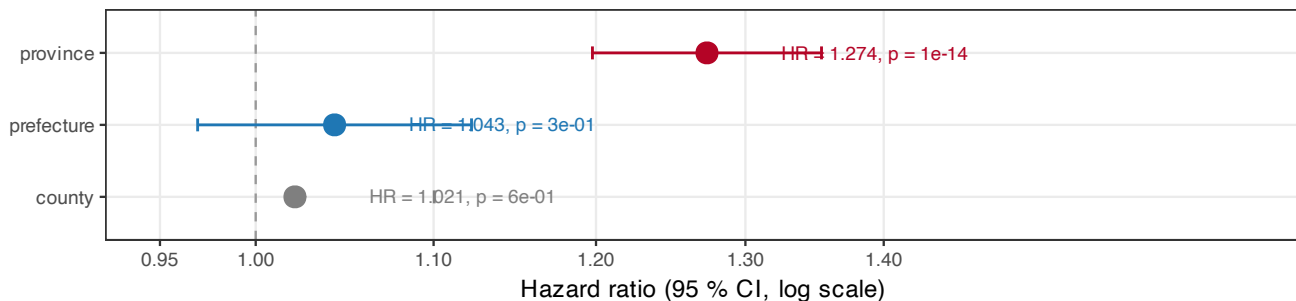

Figure 3 v3 — Multi-scale validation with the relaxed risk set

v3 propagates the relaxed (species × province) candidate set to all units within each candidate province.

a

v3 three-scale climate × effort (M4)

Province + prefecture + county; all use v3 candidate set + raw-records effort + WorldClim climate.

b

v2 vs v3 at prefecture + county

Run ● v2 ● v3
